WARNING: FLYING FOXES

Competitors in Horse Events at the show should be aware of the flying fox colony at the Glebe Lagoon, south of the Showground. They are close to the showgrounds where many competitors camp.

Flying Foxes are known to carry the Hendra Virus which can affect horses, dogs and humans. The virus is carried to the other species through body fluids of the flying fox - faeces, saliva and urine.

However, testing has shown that no Hendra Virus has been found in coastal NSW colonies (including the Bega Valley). It is confined to Queensland and the Northern Rivers of NSW.

However, horse owners camped at the Showground for the Show should take precautions such as general hygiene, the covering of feed and water vessels used by horses, especially at night time when the flying foxes are active.

Please no camping in Glebe Park. Please refrain from having animals under or near the trees near the lagoon where the flying foxes roost.
